1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. #### ***Response to Arguments***

2. Applicant's arguments with respect to claims 1, 2, 4-11, 13-14, 16-21 and 23-26 have been considered but are moot in view of the new ground(s) of rejection, Spelman et al. (US Patent No. 5,680,458).

#### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 8, 17, and 24 are rejected under 35 U.S.C. 102(b) as being anticipated by Spelman et al. (US Patent No. 5,680,458).

Referring to claims 8, 17, and 24, Spelman et al. discloses a method, device, and article comprising:

a processor (See Column 7, lines 18-20)

a machine-readable storage medium coupled to the processor by way of a bus  
(See Column 7, lines 27-29)

producing a document comprising an identification of a software module binary and a list of comprised keys (See Column 4, lines 34-46)

and digitally signing the document using a key presented by or read from the document and traceable to one key of a set of keys, wherein the set of keys is embedded in the software module binary (See Column 5, lines 9-16)

the set of keys having been compiled and linked with a software module to generate the software module binary (See Column 6, lines 33-46)

### ***Allowable Subject Matter***

5. Claims **1-2, 4-7, 13-14, 16, 20-21 and 23** are allowed.

6. Claims 9-11, 18-19, and 25-26 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
